

PRESS RELEASE

December 1<sup>st</sup>, 2021

## Berger-Levrault, international leader in software publishing, expands to Switzerland

Berger-Levrault, an expert group in digital solutions publishing, is opening a subsidiary in Switzerland with headquarters in Lausanne. The objective of this opening is to distribute all the solutions of the Group and to promote its products and services to the various target markets.

Strengthened by an international experience, the software company aims at becoming, in the medium term, a major player in software publishing in Switzerland. As a specialist in collaborative platforms for the common good, Berger-Levrault covers a wide range of sectors such as industry and maintenance, health and medico-social services, public administration, education, etc.

As head of the Swiss subsidiary, Laurent Rollinger, backed by his experience in international relations for the Group, is now responsible for the development of the Berger-Levrault offer throughout Switzerland.

*« I am very proud to be part of the creation and development of Berger-Levrault in Switzerland. We have dozens of clients from many different sectors. We are now going to strengthen our position across the country, targeting four main verticals: industry, transport, health and facility management, supported by a growing network of partners. We are also launching the recruitment of consultants and project managers with knowledge of EAM to provide a local service to our customers and partners », Laurent Rollinger, Head of Development of the Berger-Levrault Switzerland offer*

At the end of 2021, Berger-Levrault Switzerland has great prospects for the coming year: its business objectives for 2021 have already been doubled, with the deployment of the CARL Source solution to the *Transports Publics du Chablais*!

### About Berger-Levrault

The international software company supports private and public sector professionals to meet the growing demands for performance and transformation of their businesses. With 51,000 clients and 1,900 employees in France, Spain, Canada, Morocco, Belgium and Italy, the Group serves local authorities and administrations, medical and social facilities, the hospital sector, companies, industries and the field of education. Its ambition is to help its users benefit from the tremendous potential of digital technology through service platforms at a time of massive data opening and intelligent interfaces. In 2020, the Berger-Levrault Group (headquartered in Boulogne Billancourt, Paris) achieved a turnover of €172 million, 20% of which achieved internationally.
